

September 27, 2005

Florida Canine Academy, Inc. is a leader in the field of canine training for Mold Dogs™ and we are proud to endorse MoldTech® Mold Inspection Software as an “absolute must have” for all our Mold Dog™ handlers.

The software saves inspectors time and money both during the inspection, out in the field, and during the report creation process back at the office. MoldTech® Software is an essential tool for any mold inspector in the industry! I personally recommend it to anyone who produces mold reports in their business!

Sincerely,

Bill Whitstine (Certified Master Trainer)  
President  
Mold Dog™, a subsidiary of the Florida Canine Academy, Inc.
